

PAMA SA 2014

As you all have heard, PAMA South Africa 2014 has been postponed by our PAMA Global Head Office in Taiwan.

This is due to the ongoing headline news regarding Ebola. Most parents decided not to travel this year because of the continued threat of Ebola.

We are awaiting confirmation of a new date for PAMA 2015 and will let you know as soon as we have received it.

Keep on practising...

International Memberships

CMATHS is a member of ISDF

We received the fantastic news that CMATHS has been accepted as a member of ISDF! We look forward to working closely with our Japanese partners to provide an ongoing and excellent curriculum to our students.

The ISDF, International Soroban Diffusion Foundation, is a non – profit organization who propagates the spread of Soroban Education across the world.

Masao Fujii, who is a member of Japan Soroban Foundation and the Director General of ISDF, has been given the task to set up an accreditation system for countries outside of Japan to examine and certify Kyu and Dan levels. This process has already started and we will notify once the system is in place.

The Japan Soroban Federation (Nihon Shuzan Renmei) is the authority on accreditation of the Kyu and Dan in Japan. They are the only Organization accredited to host Kyu and Dan exam in Japan.

ISDF has hosted the Japan Soroban camps annually 200km outside of Tokyo since 1960. CMATHS was invited by Masao Fujii to the August 2014 camp. We will be returning every year with talented South African students!
